

Company and Founders' Profile

Shutterz is a trade name of Masorong-Rivera Corporation, a corporation duly registered with the Security and Exchange Commission and granted permit to operate a business in the City of Muntinlupa. Established in 2019, Shutterz Philippines partnered up with Croci Australia, the biggest manufacturer of roller shutters in Australia with over 35 years of experience in the business. Shutterz Philippines is now the exclusive distributor, fabricator, and installer of all of Croci's line of roller shutters in the Philippines.

Odin Masorong, founder of Shutterz Philippines, is a contractor and owner of Jigsaw Construction OPC. He has more than 15 years of experience in the construction industry specialising in house construction, finishing fit-out construction, home and office renovation. He was not happy with the quality of roller shutters available in the Philippines. So he took the initiative to take it to the next level.

Marvis Rivera, co-founder of Shutterz Philippines, is a Senior Quality Consultant for Construction Industry in Australia based in Melbourne. With over 20 years experience in Engineering and Construction of Railroads, Roads, Tunnels, Infrastructure and Renewable Energy Projects. He travels all over Australia where his expertise is required. His goal is simply to lift the standard of project delivery.

Company History

Odin, being experienced in the construction scene, personally experienced the problems of roll-up doors and shutters in his projects. The locally available roll up shutters are not aesthetically pleasing and are not preferably used for households and beautiful commercial areas. They also operate awfully slow for motorised roll up doors. The Philippines is also known to experience an influx of typhoons each year. The standard noisy, steel roll-up doors are not designed for strong typhoons. Since the country is an archipelago, this means living and doing business in beaches and sea-side areas are very common. For homes and businesses that are located in these areas, steel will rust faster and is not the best option. This drove him to look for a better alternative.

Upon visiting Australia on a family vacation, Odin saw a solution to all of these problems - perfectly designed and engineered shutters. Marvis, who is based in Australia, hosted them during their stay and became his business partner. Marvis who is a consultant and expert in quality chose no less than the biggest and most reputable company in Australia - Croci Australia. The company that has over thirty five years of unparalleled experience in the shutters industry. Their products provide all the qualities the partners were looking for.

Odin and Marvis immediately organized a company and signed an exclusivity contract with Croci Australia to make Shutterz Philippines the exclusive distributor, fabricator, and installer of all of Croci's line of quality products. The managing director of Croci Australia visited the Philippines after the first shipment arrived in the Shutterz' office and warehouse. He personally trained the Shutterz' team of technicians who are now certified experts.

For the first time in the Philippines, window roller shutters are now available for Filipinos to enjoy. Shutterz Philippines now offers the following quality rust-free aluminum roller shutters available in a variety of colors and wood grain finish, and compatible with IOS and Android for home and office automation:

- Residential Shutters with UPS

Mission and Vision

Our Mission

“To deliver quality products and client satisfaction through excellent service.”

Our mission is to make sure that you get the best quality roller shutters or roll-up doors for your home, office, and commercial establishment that fit your style.

Shutterz offers the best and top-notch services to make sure that you get the best quality roller shutters at the best possible price backed by a 5 years warranty. We provide free on-site inspection and consultation.

Our Vision

“To be the leading manufacturer and supplier of quality roller shutters in the country.”

We realized that in the Philippines, due to lack of other alternatives, people settle for heavy roll-up doors made of steel which most of the time are difficult to operate. Inspired by this, our company was founded. Our goal is to ensure that we deliver quality, durable and easy to operate with excellent workmanship.

Shutterz partnered up with Croci Australia, the leading manufacturer and supplier of roller shutters in Australia, with more than 35 years of unparalleled experience in the business.

With rigorous training and dedication to clients, we guarantee quality.
